THE PROJECT INVOLVES

- An Induction Day - November 18th, 2009
- Demo Day 1. An in-school demonstration and seminar day for each network during the week of March 9 - 12, 2010
- Training Day - March 16th, 2010
- Demo Day 2. The second in-school demonstration and seminar day during the week of April 20 - 23, 2010
- Demo Day 3. The third in-school demonstration and seminar day during the week of June 8 - 11, 2010
- Project End and Dissemination Day - June 15th, 2010

DEMO/SEMINAR DAYS

- Each school in the project will have 1 demo / seminar day
- The project teachers from the 3 or 4 schools in the network will visit each of the schools in their network for the demo days. In this way the project teachers will be involved in a total of 3 demo / seminar days (this model will work slightly different in the 2 networks with 4 schools)
- The demo / seminar days are open to anyone else in your school who you think might like to be involved

CREATING BONDS

- A significant aspect of the project will be the 'bonds' created within and between networks.
- We encourage teachers within networks to meet and share experiences and thoughts during and after the project.
- We have found this has worked very successfully in other projects at embedding and sustaining the work.
